

Elementary Education

The UA South Elementary Education Program is a professional teacher preparation program that leads to Arizona elementary certification in grades 1-8 and is dedicated to preparing reflective, competent, responsive, and professional teachers. Students are provided support right from the start, with academic and financial aid advising, orientations, challenging coursework, and placement in school classrooms every semester. Elementary Education is offered in the following locations: Sierra Vista, Pima County, Douglas, Santa Cruz County

The program has close partnerships with schools in Pima, Santa Cruz, and Cochise Counties. Teacher candidates have ongoing opportunities to put theory into practice, develop teaching competencies, and receive guidance from professional classroom teachers and university mentors. As a cohort experience, students find a strong support system designed to foster the beginning of a professional teaching network.

About Faculty:

Laurie Seder, Ph. D.

Assistant Professor, Teacher Education | Interim Program Director, Elementary Education & Early Childhood Education

lseder@email.arizona.edu

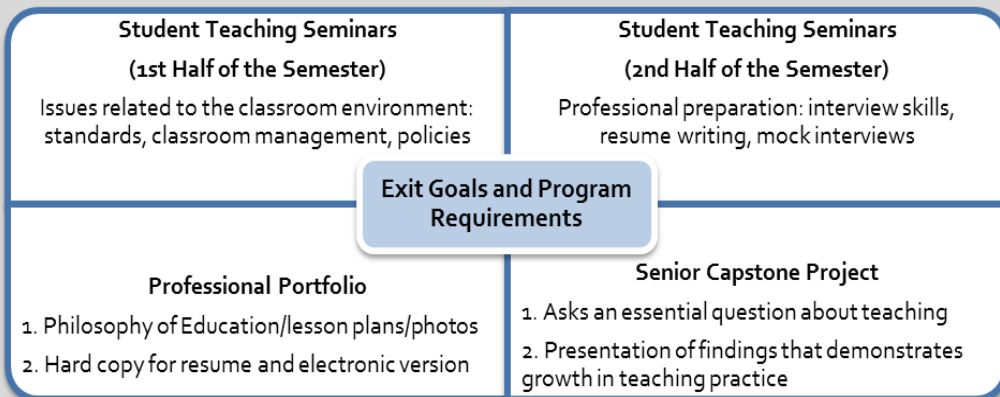

Dr. Laurie S. Seder holds a doctorate in Special Education and Rehabilitation as well as a Master's degree in Educational Psychology from The University of Arizona. Her Bachelor of Arts degree is in Special Education from Arizona State University. Her academic research interests include reading disabilities; general education supports for children with disabilities in inclusive classrooms, and developmentally appropriate practices for early childhood environments.

What are 5 Benefits of Graduating with a BS in Elementary Education from UA South?

- 1. BA vs. BS** – UA South offers the BS which is marketable because it requires more science, so teachers in our program are prepared to teach math and science and to pass required state exams for teacher certification.
- 2. Institutional Review (IR)**- As an Approved Teacher Preparation Program, UA South provides program graduates with an IR, which guarantees a teaching certificate as long as graduates pass required state exams, pay all fees, and maintain an active fingerprint card.
- 3. Clinical Practice**- Students are placed in classrooms every semester- to observe, assist students, and teach lessons- so that they are competent and confident to enter their own classrooms after graduation.
- 4. Mock Interviews**- Students participate in mock interviews with education professionals from school districts in their community. School administrators that are hiring teachers attend the mock interviews and UA South students are often hired prior to graduation.

What Courses are in the Program?

The Elementary Education Program is an intensive learning experience that combines classroom lecture and discussion with structured practicum and internship experiences in area schools. The final semester of the program requires a full-time commitment to a student teaching internship.

I. Junior-Year Sequence

Teacher candidates enroll in the following courses:

- Structured English Immersion (SEI)
- Creative Arts in Context
- Teaching Exceptional Children
- Classroom Management and Instruction
- Literacy in Elementary School
- Technology for Educators
- Assessment in Education
- Clinical Practice (Field Studies) – Each semester students are required to spend one half day per week for a minimum of 45 hours per semester in the classroom

II. Methods Sequence

During the first semester of the senior year, teacher candidates enroll in a 16 credit block of methods courses.

- Reading Instruction and Assessment
- Language Arts Instruction and Assessment
- Social Studies Instruction and Assessment
- Math Instruction and Assessment
- Science Instruction and Assessment
- Clinical Practice (Field Studies) – Students are required to spend one full day per week for a minimum of 90 hours in the classroom

III. Student Teaching

During the final semester of the program, teacher candidates enroll in a 15-week student teaching internship that includes:

- Full-time student teaching experience, supported by a classroom mentor and a university mentor
- Participation in student teaching seminars
- Research and presentation of a Senior Capstone project
- Development of a professional portfolio

Teachers are knowledgeable, caring, positive, organized, committed and are effective communicators. These are attributes that employers across vast job fields seek. There are many jobs in addition to teaching that include, but are not limited to:

Business and Industry

- Training and Development
- Human Resources
- Customer Services
- Publishing and writing
- Counseling

Higher Education

- Youth Program Management
- Tutoring
- Mentoring
- Research
- Student Services Administration

Government

- Planning
- Evaluation
- Management
- Research and Writing
- Social Work

Adult and Continuing Education

- Staff Development
- Professional Development
- GED Preparation
- Literacy Development
- English as a Second Language
