Organizational Leadership

The Bachelor of Applied Science in Organizational Leadership awards students with active leadership skills, helps build effective networks, and yields useful experiences that add value to careers and communities. Organizational Leadership courses are based on theory but focus on the application of psychological principles to work settings. This approach will allow students to gain insight into crucial leadership topics and to gain a deep understanding of organizational processes and the interactions between leaders and followers. In the required capstone course, students will complete a project within their community, allowing them to apply their skills while giving back. Organizational Leadership is offered Online.

About Faculty:

Brandy Brown, Ph. D

Assistant Professor | Program
Director

Organizational Leadership

brandyabrown@email.arizona.edu

Dr. Brandy A. Brown holds a doctorate in Industrial-Organizational Psychology with a specialty in Occupational Health and her masters in Applied Psychology from Clemson University. Dr. Brown's current academic research interests include teams and stress, the effects of leadership on teams under stress, and the psychology of situations. She regularly presents at the national conference for the Society of Industrial-Organizational Psychology. She has also served as a Research Fellow with the Army Research Institute out of Ft. Jackson, SC. & Services, and the National Science Foundation.

What are the requirements to enter the program?

The Organizational Leadership program requires a supplemental program application in addition to admission to The University of Arizona. The entrance requirements include:

- Minimum 2.5 GPA in your college coursework
- Resume
- Goal Statement
- AAS degree (recommended)

Please contact us if you have any questions about the transferability of your credits, your admissibility to the program, or the application process. For full application instructions, please visit <http://uas.arizona.edu/admissions>.

Sample courses in the program

LDRV 302 - The Leadership Function- This course focuses on the dynamics of supervisory and leadership function in private and public organizations. Students will gain an understanding of the cognitive roles that make up the supervisory/leadership process as well as how to apply supervisory and leadership theory to actual situations in the workplace.

LDRV 401 - Leadership in a Diverse Environment - This course focuses on developing basic management skills to motivate and lead employees, improve organizational performance, and succeed amid diversity within the organization.

LDRV 397A/B – Mentoring Workshops - The practical application of theoretical learning within a small group setting and involving an exchange of ideas and practical methods, skills, and principles for various topics that relate to the field of Organizational Leadership.

- Marketing and Public Relations

“Dr. Brandy Brown has been an amazing professor and has inspired me to take on a greater leadership role at the UA South. I, along with other classmates, have called Dr. Brown’s courses “life-changing.” Many of us are parents and employees who are juggling several roles. She has helped many of us realize our potential through mentoring, by challenging us, and helping us realize our potential. Thanks to her mentoring both in and outside of class, I realized my potential as a leader and a scholar.” – Jessala Grijalva
