SANS-ICMCP: Diversity Cyber Academy
A United States Cyber Academy Program

The SANS Institute and the International Consortium of Minority Cybersecurity Professionals (ICMCP) are partnering to create the SANS - ICMCP: Diversity Cyber Academy (DCA), combining efforts to increase the career opportunities for minorities and women seeking to enter the cybersecurity field.

The DCA is a four-to-six-month accelerated, immersive cybersecurity training program providing eligible candidates with advanced technical training and industry-recognized GIAC certifications. Students will master hands-on information security skills sought by employers in domains such as cyber defense, incident handling, and more.

The SANS Institute is the largest and most trusted source for cybersecurity training. Its programs now reach more than 165,000 security professionals around the world.

ICMCP was launched in 2014 to help bridge the 'great cyber divide' that results from the ongoing under representation of minorities and women in the fastgrowing field of cyber security. The ICMCP targets minority and women cyber security professionals worldwide and promotes academic and technical excellence in our tradecraft.

100% Scholarship Based

Graduate Opportunities

Represent UA South on the Graduate and Professional Student Council

In order for GPSC to better serve the graduate student community, it is important that we have representation from the different groups/colleges across all our campuses.

In order to be an appointed GPSC representative, each candidate must submit the petition, along with 10 signatures from members of their constituency. That includes any graduate or professional student from UA South.

For more information contact Dustin Tran
