Email address: afaguirre@email.arizona.edu

Project Name: UA Santa Cruz Tutoring

Project Type: Student Academic Support

Funding Requested: $2886

Start Date: July 1, 2015

End Date: June 30, 2016

Student Priorities Addressed: Academic Support

New project: No

If yes, multi-year justification:

Is Service Fee monies sole funding: Yes

Will it continue without SSF funding? No
If Yes, how:

If No, Why: The need for this program will continue into the upcoming academic year, as has become evident from conversations with students and staff.

Director of Project and contact information: Alan Aguirre

Please include with this application a budget or business plan, to include a timeline for spending.
April 1, 2015

Dear SSF Committee:

Last spring, we ran a pilot in which Cochise College tutoring was made available to UA South students. These tutoring services were a part of a comprehensive tutoring package of which UA South students were informed. In that package, UA South students had tutoring options that included in-person tutoring at the Cochise College Santa Cruz tutoring labs, mainly, and tutoring provided in-person and online through the Think Tank on the UA Main Campus. Due to delays in finding qualified tutors in Santa Cruz County, full tutoring services were not made available until late in the Fall 2014 semester, therefore students have not yet had the full opportunity to utilize these services.

For this upcoming school year, I believe that such tutoring should remain in place to keep assisting and improving the quality of education for UA Santa Cruz students. While the program was not utilized to its full potential last academic year, it is worth noting that there is a great need for such services, especially because of the vast amount of ESL students that we serve as our population. Students transferring from Cochise College to UA Santa Cruz have had difficulty adjusting to the new academic writing standards required by UA Faculty. Although students in Santa Cruz County have tried using the Think Tank, I believe one-on-one tutoring, especially in writing for ESL students, would be more beneficial and effective.

Budget:

The money requested would be a total of $2,886 for July 1, 2015 – June 30, 2016

Writing: 2 hours a week at $18.50 /hr. = $1,924 for Summer 2015 – Summer 2016
Math: 1 hour a week at $18.50 /hr. = $962 for Summer 2015 – Summer 2016

Assessment:

For this upcoming academic year, UA Santa Cruz will monitor usage in this way and will have data to report in the SSF progress reports to evaluate student interest, usage, and improvement. GPA comparisons will be done on the students who use tutoring and those who do not to indicate if the services are helping our students be successful.

Tutoring services would require students to sign in as well as noting the course that in which they are struggling. (i.e. TEDV 326 – writing or BAS 314 – math).

Thank you for considering this proposal to offer academic assistance at the University of Arizona Santa Cruz.

Respectfully,

Alan Aguirre
Student Services Coordinator

Student Services Fee Application for Funding

Student Services Fee – UA South Scholarships

Financial assistance continues to be a real source of stress when talking to UA South students pursuing higher education, and while the lack of time arguably is a constant for students, the stress of financing their education is becoming more of an issue than ever before. It is unquestionably the largest obstacle facing college students today; having sacrificed to start and now hoping to find a way to finish. Financial aid can make a massive contribution, but with the guaranteed rise in costs, scholarships and tuition assistance are now becoming the last hope for affordability.

Proposal:

Utilizing monies from the Student Services Fees, we propose the continuation of the Student Services Fee Scholarship. The idea is to give back to students, some of the money they have contributed to UA South, by way of their Student Services Fees. The criteria would include an essay submission and a minimum GPA requirement. The submissions will be reviewed by the Scholarship Committee of UA South, which comprises staff from UAS campuses. In addition, Student Services, the submitter of this proposal, is flexible to any changes in the scholarship criteria and amounts the SSF Committee wishes to suggest upon closer inspection of the existing criteria and SSF budget.

Benefits:

a. Help alleviate the stresses of making educational purchases required for their courses, i.e. books, research tools, jump drives, etc.

b. More tuition assistance dollars translates to less student debt.

c. Students could afford to work less allowing time to improve academic performance.

Budget:

The SSF governing documents state that a minimum of 17% of student services fees must be allocated to student scholarships. Of the $50,000 anticipated in Student Services Fees for FY16, this would constitute a minimum of $8500.

Given the importance of student scholarships for student success and progression, we propose $10,000 be allocated for the scholarship for the 2015-2016 academic year, dividing the total amount into $5000 each semester.

Please include with this application a budget or business plan, to include a timeline for spending.
Student Services Fee Application for Funding

Student Services Fee Coordinator Salary

The position of Student Services Fee Coordinator was changed during FY13 from a part-time employee to a dual role handled by the then Student Services Office Specialist, Sr (now Academic Affairs Program Coordinator). The UA South administration felt it was reasonable for Student Services Fees to cover the portion of this individual’s salary corresponding with the hours spent on SSF duties, which originally had been factored at .18 of her total salary, totaling $230 per pay period, or $6000 per year. This amount was awarded in FY13 by the SSF committee.

Due to the solid groundwork laid by previous SSF Advisors, as well as to her own hard work, the Program Coordinator has been able to handle SSF duties by devoting a little less than 5 hours per week to those tasks and the job FTE is now set at 0.10. Ten percent of her total salary is now a total of $3920, or approximately $151 per pay period.

Currently, our peers on the Main Campus have this position covered 100% by SSF monies and the Office of Student Services respectfully requests that the Student Services Fee Committee consider covering this portion of the Program Coordinator’s salary for the SSF Coordinator position.

Email address: wbbates@email.arizona.edu

Project Name: Student Laptop Check Out Program

Project Type: Funding for Technology Equipment

Funding Requested: $12,800 (+/-) at the committee’s discretion

Start Date: July
End Date: July (see below for more details)

Student Priorities Addressed: Student access to mobile technology. UA South students enrolled in at least 2 of our classes would be allowed to check out a laptop computer for one semester at a time. Historically, we’ve done this on a first come, first serve basis. It has allowed students without computers to borrow them from us. It has allowed some students to be able to take our online classes who would not otherwise have access to online courses. It has also allowed folks who can’t afford to purchase computers and who may not have access to our computer labs (because of time or location) to continue to take our courses. We’ve had students at all 4 of our major campuses (SV, TP, Nogales, Douglas) use the program.

New project: No. We received enough funding to purchase 4 laptops last year, all of which were used each semester they were available.

If yes, multi-year justification: Purchasing laptops as often as funding allows would ensure students continue to have modern equipment (see below for more details) for the increasing demands of online learning, video streaming course content, etc.

Is Service Fee monies sole funding: Yes. We don’t dedicate state $ to loan laptops to students although we do recycle our used staff machines into the program.

Will it continue without SSF funding? Yes, but without funding, the program and our laptops will continue to decline with age until they have no value ...

If Yes, how: As things stand now, the program is in jeopardy. Laptops available to students through our program will continue to depreciate until they have no value. This summer, we will retire 19 of the remaining original 25 9-year old laptops as they have high failure/ complaint rates. The program could continue with old staff/faculty laptops in their 4th year and older. The
only way to have “modern” laptops is through SSF funding. The worse the laptops get in age, the less likely students will want to borrow them because they’ll be less likely to meet their performance needs.

If No, Why: N/A.

Director of Project and contact information: Brian Bates, 458-8278 x2164 wbbates@email.arizona.edu cell 227-3152.

Please include with this application a budget or business plan, to include a timeline for spending.

History of the laptop loan project: Cochise College and UA South both participated in a Title V grant where Cochise College purchased 25 laptops in 2006 for student check out and use that were managed through their library. In 2009, Cochise transferred those laptops to UA South. Since Fall 2009, UA South has maintained the laptop loaner program for students in need of a laptop for a semester. Those laptops are now 9 years old. We will retire the last of the original 25 laptops this summer because of depreciation. Also in the program are used staff/faculty laptops. Our staff and faculty are mostly on a 3 to 4 year computer refresh cycle, so when we upgrade them to new computers, we take their 3- or 4-year-old laptops and add them into the loan program. So at best, we currently loan 4-year old laptops to students, with the exception of what the SSF provides (currently, 4 systems). We would like to retire all our systems in the program older than our most recently used staff laptops, which were purchased in 2009. We would need to purchase 16 laptops to keep our inventory at 20 “modern” laptops for students to borrow, plus a dozen older staff models in the event of additional requests. We historically loan 20-25 laptops per semester.

Costing each of 16 laptops at approximately $756 each ($699 plus tax) for a good, but not great laptop comes to $12,096. We can either reuse the cases we have now (which is not ideal), or spend $800 per laptop to include newer, lighter, nicer cases as well. 16 x $800 = the $12,800 amount requested above. If the committee likes the idea of the laptop program, I will defer to them to fund the laptops as they see fit. If they would like us to purchase either more laptops or better laptops, we could exceed the amount above. If they prefer fewer or cheaper laptops, any dollar amount will help us add systems to the loaner program.

Once we know funding is approved, it should only take one to two weeks to research and order laptops. Purchasing July (i.e. at the beginning of the new fiscal year) would easily give us enough time to purchase and prepare the laptops for the start of fall semester loans.

In terms of goal-setting or measuring the plan’s success, we’ll be happy to provide utilization statistics, or even feedback forms of the ways students have been able to use the laptops or the impact they have had on the students’ studies, if requested. Historically, 20 laptops will almost certainly be issued every semester – even more likely if they are new laptops.

Thanks for your consideration. Brian

Student Services Fee Committee  
1140 N Colombo Ave  
Sierra Vista, AZ 85635

Re: Student Services Fee Proposal – ASUAS Operational Budget

Issues facing adult and evening students can be a real source of stress; however student government helps to alleviate that stress by offering support to the UA South student body. ASUAS is responsible for the extra-curricular activities to help student’s distress from their daily academic regimen. Student government also supports clubs and organizations, which benefits students by allowing them to participate in a non-traditional setting as well as presenting opportunities to include on a resume. ASUAS traditionally puts on three main events a year that students know to look forward to: Welcome Back Bash, Dean’s Town Hall, and the Commencement Celebration. ASUAS officers act as the voice of the UA South student populace and represent them in front of the UA South Leadership, UA Main Campus, and ABOR. Utilizing monies from the Student Services Fees, we propose that an ASUAS Budget be established. The idea is to give back to students some of the money they have contributed to UA South, by way of their Student Services Fees. It would be in the best interest of UA South Students at all locations for ASUAS to receive funding to help create an amazing student experience.

In the current academic year the following achievements were made possible by the generous funding we received from the SSF committee.

- Welcome Back Bash – The Welcome Back Bash event was held at the beginning of the school year and brought together ASUAS officers, our clubs, and students for an unofficial meet and greet (About 60 attendees).

- Student Council – The student council is a student body attached to student government. The council is focused on student life and experiences and were in charge of events like Sierra Vista Christmas tree decoration and supporting the Tips for Scholars event (with the UA-South Alumni Association-Huachucats) (About 30-40 attendees for each event).

- Dean Town Hall – The Town Hall with the Dean event brings together students, staff, and faculty for an informal QA session with the Dean and staff where students can ask questions and voice concerns and get an answer straight from the administration. (About 50 attendees each semester).

- Grad Fair Support – Student government supported the Grad Fair in both locations this year (Sierra Vista and Tech Park) and provided food. ASUAS officers were available during the events to answer questions and promote the Commencement Celebration.

- ABOR Meeting and Pre-Meetings – ASUAS attended an ABOR meeting and a pre-ABOR meeting hosted by the governor-appointed Arizona Student Regents. The ability to attend these meetings increased the visibility of our campuses and students.

- ABOR Tuition hearing – ASUAS represented our students during the yearly ABOR tuition hearing. A light selection of snacks were served during the event for the benefit of the participating students (About 25 attendees).
• Commencement Celebration – ASUAS celebrates our graduates by allowing them to celebrate together one more time. A D.J, photo booth, and food await our graduates and their families once the ceremony concludes. (We estimate 500 guests will attend this year). This money will help ASUAS focus on student affairs instead of using their time to fundraise for the Commencement Celebration.

• New Clubs – Two new clubs were funded this year under the support and guidance of ASUAS.

• Visibility Agreement – ASUAS negotiated and achieved a visibility agreement with the leadership of the entire university (Main Campus leadership). This would allow ASUAS to be part of any negotiations for decisions involving our students made at main campus.

Budget:

We propose $11,200 be allocated to ASUAS for FY2016.

• **Commencement After Party:** $5000 – This budget will help to pay for an after party to honor graduating students. The party will be held at the UA Sierra Vista Campus with involvement from UA South staff, University Foundation, and ASUAS. Last year’s proposed budget was not enough to comfortably plan our Commencement Celebration. This tight budget led to the Executive Board to focusing their time and energy on Fundraising for this event. We feel that having such a strict budget for Commencement takes away from other ASUAS business.

• **Office Supplies:** $200 – Support ASUAS, clubs, and Student Council office operations.

• **New Clubs:** $500 – This will help support two new clubs. This helps them to purchase banners and promote themselves. The already active Psychology club and IEEE (Institute of Electrical and Electronics Engineers) club.

• **President Budget:** $1000 – ASUAS president is expected to travel for ABOR and leadership meetings. We propose $500 per semester. Our current President Semë Hastain has done a lot of traveling and has used her own vehicle when the UA car is unavailable for use. The ASUAS board feels that our President should not have to pay out of pocket for her travel expenses. This will also include hotel and conference and registration fees.

• **Welcome Back Bash:** $500-These funds will provide refreshments, decorations, and educational material for this student event.

• **Graduation Fair:** $200 -This money will provide refreshments and decorations, and educational material for this student event.

• **Deans Reception:** $1,800-This money will provide food, decoration, and refreshments for students and the Dean. This will be a formal event where students will be invited to meet with the Dean once a semester and share a meal with him and address any questions or concerns.

• **ASUAS Advisor Salary:** $2000 will compensate for the hours spent by the ASUAS advisor to support, advise, and advocate for ASUAS as well as compensate for the many hours spent participating in ASUAS meetings, programs, and events. ASUA advisors on the Main Campus are paid a full time salary, however, the position at UA South is volunteer. The advisor plays a very
important role in supporting student life for all UA South students through ASUAS, but these additional responsibilities are expected to be met despite their already full time jobs.

Thank you for your consideration of this proposal to offer continued support to all UA South students.

Sincerely,

Semi Hastain
ASUAS President
The University of Arizona South
Student Services Fee Application for Funding

Project Name: Guanajuato Mexico - Student Exchange
Project Type: International Student Exchange
Funding Requested: $2,726.00
Start Date: Fall 2015
End Date: Fall 2015

Student Priorities Addressed: Facilitate valuable student exchange program for two Teacher Education M.Ed. students with the Department of Education Graduate Program at the University of Guanajuato, Mexico

New project: YES If yes, multi-year justification: YES
Is Service Fee monies sole funding: YES
Will it continue without SSF funding? YES
If Yes, how: We will continue to seek alternate funding sources to keep these programs going.
If No, Why:

Director of Project and contact information: Dr. Etta Kralovec
520-458-8278 Ext. 2180
Kralovec@email.arizona.edu

Please include with this application a budget or business plan, to include a timeline for spending.
Purpose: The purpose of this grant application is to seek funding in the amount of $2726 in order to facilitate an international exchange for two University of Arizona South Teacher Education M.Ed. students with the University of Guanajuato, Mexico. These individuals would be selected based on their demonstrated leadership and mentoring skill, with the expectation that they would document their journey and return to share their valuable experience and insights with their fellow students and faculty through the program’s Teacher Education Seminars.

The Teacher Education M.Ed. program is under the direction of Dr. Etta Kralovec. Her program design is oriented toward the unique requirements of working in Southeastern Arizona. Cultural competency and leadership are two key elements of the curriculum. She requires that all of her students participate in an annual Living and Learning on the Border Symposium, inviting noted academics in the field, community stakeholders, and educators from both sides of the border to share ideas and to collaborate around the challenging issues of teaching on the US/Mexican border. Dr. Kralovec was recently honored with the Distinguished Outreach Professor award at the University of Arizona for her important contributions in this regard. While on sabbatical recently in Finland, studying their alternative teacher education program, she initiated a valuable collaboration with Dr. Silvia van Dijk from the University of Guanajuato. Dr. van Dijk was the keynote speaker at the February 2015 Living and Learning on the Border Symposium, and she, like Dr. Kralovec, is highly regarded in this field.

Dr. Kralovec and Dr. van Dijk see great value in developing a student exchange program between the UA South Teacher Education M.Ed. program and the Department of Education at the University of Guanajuato.

PLAN: Exact dates in October will be confirmed with our host, Dr. van Dijk. A global email will be sent out to all current program participants asking them to complete an application if they are interested in the exchange. Dr. Kralovec and two of her lead program Mentors will select the students for the exchange based on their demonstrated leadership skills and their level of engagement with their M.Ed. program. The selected students will be responsible for completing all documentation and requirements for international travel (i.e.; passport, visa, vaccines). They will fly from Tucson, Arizona to Del Bajo International Airport, Guanajuato Mexico. They will be hosted in the homes local families’ selected by Dr. van Dijk in order to facilitate a more genuine and authentic experience. The exchange will last for seven days, (six nights), and will include attending University of Guanajuato education courses, and other cultural events to be determined by Dr. van Dijk. The designated hosts and the University of Guanajuato will provide any necessary transporting of the students. They will also be supplied with two University cameras to document their experience for sharing upon their return. A per diem has been allowed for any unforeseen travel expense and meals.

TIMELINE: Once funding is received, applications will be accepted, and dates will be confirmed. All arrangements for host families, reservations, airline ticket purchases, obtaining passports, will need to be completed well in advance of the trip, no later than August 31, 2015. (The exchange is tentatively calendared for the middle of October, 2015.)

BUDGET NARRATIVE: The airfare projected out for October is about $750.00. Additional funds were requested to cover taxes and fees associated with airline travel, and the cost of checking luggage. There will also be mileage to the airport to consider. The Per diem is based on the US Department of State recommendations for that region.
ATTACHMENT 2 - SSF GRANT APPLICATION

BIOGRAPHICAL SKETCH
Dr. Sylvia van Dijk – University of Guanajuato

Dr. Sylvia van Dijk is currently a researcher and advisor at The University of Guanajuato. She holds a Bachelor’s Degree in Elementary Education from the Escuela Nacional de Maestros del D.F and a Master’s Degree in Hispanic Literature from UNAM (The National Autonomous University of Mexico). She completed her studies in Spanish as a Second Language at The University of Amsterdam.

Dr. van Dijk has been involved in promoting and directing innovative educational projects in the Netherlands as well as in Mexico for the past 30 years. Her public policy focus looks at providing equity for women, girls and marginalized children. In addition, she has coordinated several research projects that evaluated the impact of migrant children, school abandonment, evaluation of school services, and the rights of infants. For the last 40 years, Dr. van Dijk’s work has centered on sustainable communities for preschool educators in rural farming communities. Her work span of 10 years at The University of Guanajuato has included curriculum recertification and revision of graduate curriculum. She is an advisor for two graduate degrees offered by the Department of Education and coordinates the Master’s Degree in Research Education. She has published educational relevant material for the development of community leaders and educators. Her publications include 3 books and 20 academic articles, conferences and forums in Mexico and 15 other countries.

Guanajuato University  Guanajuato, Mexico  Plaza de la Paz, Guanajuato

Guanajuato is a city located in central Mexico, and is the capital of the state of the same name. It was originally founded in 1548 and has a current population of 171,709. It is rich in Pre-Hispanic and Colonial history. Built around the mining industry, it is known for its hilly terrain, and the dedicated preservation of its rich cultural history. The University itself was established in 1732 and has over 17,046 students. It offers 153 academic programs, including 13 doctorates, 39 masters, and 65 bachelor’s degrees.

Student Services Fee Application for Funding

Contact Person: Marisa Trevino

Department: Student Services

Phone: 520-458-8278 x. 2156

Email address: mtrevino@email.arizona.edu

Project Name: Career Services Opt-In Fee

Project Type: Student Services

Funding Requested: $3250

Start Date: August 2015

End Date: August 2016

Student Priorities Addressed: Career Counseling Services, Career Related Resources, Job Search Resources, Resume Reviews, Interviewing Tips, Access to Wildcat JobLink

New project: No (Repeat)

If yes, multi-year justification:
This project was a pilot project for the 2013-2014 academic year. Usage of these services by UA South students will be monitored and reported by UA Career Services. After each year, usage will be evaluated to determine whether to continue funding for the services. A continued funding proposal would be submitted to the Student Services Fee committee at that time due to increased usage.

Is Service Fee monies sole funding: Yes

Will it continue without SSF funding? No

If No, Why: If these services are not utilized by students, continued funding will not be necessary.

Director of Project: Marisa Trevino mtrevino@email.arizona.edu

Please include with this application a budget or business plan, to include a timeline for spending.
Student Services Fee Committee  
1140 N Colombo Ave  
Sierra Vista, AZ 85635

Re: Student Services Fee Proposal – Career Services Fee

Dear Student Services Fee Committee:

The University of Arizona Career Services office has implemented a yearly $5 opt-in fee to access the full scope of Career Services available. Opting in provides a “One Stop Shop” with resources and tools that will help students maximize their efforts and achieve their career goals. Such fee based services include the Arizona Career Information System, Resume Builder, Career Beam, iChat appointments with Career Counselors, Wildcat JobLink, Interview Stream, and online career assessment programs. Without opting-in, students are limited to the services they can receive from Career Services.

The following website outlines the benefits of opting-into the Career Services program:  
http://career.arizona.edu/student/opt-in-with-career-services/what%27s-covered-by-the-user-fee-

The University of Arizona South Student Services proposes that this $5 yearly fee be covered for all UA South* students (undergraduate and graduate) so that all students can partake in Career Services benefits.  
*UA Online students (even those pursuing a BAS degree) will not be considered part of this proposal as their respective student services fees go to main campus and are not a part of this budget process.

In spring 2015, UA South Student Services collaborated with Career Services to provide face to face resume reviews at UA South locations (Tucson and Sierra Vista); 30+ students utilized this service during the 2015 Grad Fair. Additional “on site” visits are planned to be conducted bi-monthly and ad hoc based on need for students to have personalized services at UA South campuses; these services are currently only offered at Main Campus Career Services Center.

In your consideration of this proposal, please be aware that this is most likely the last time Student Services will request the Career Services fee from Student Services fee fun. As part of the 2016-2017 fee management changes from main campus, the $5 opt-in cost will (most likely) be absorbed into the “mandatory fees” for Student Engagement and therefore part of the required fee paid by students in upcoming years.

Budget:

Anticipating growth in student enrollments and accounting for students newly admitted in the Spring semester, approximately 650 graduate and undergraduate UA South students would be eligible for this project in 2015-2016, requiring $3250 to cover the Career Services Fee for all students. These fees will need to be paid prior to fall 2015 semester for students to receive the full benefits for the 2015-2016 academic year.
Budget for 2014-2015: $3,500
700 students x $5 each

Actual Spent 2014-2015: $2880
576 students x $5 each

Projected Spending 2015-2016: $3,250
650 students x $5 each

Assessment:
UA South students, through Student Government, had requested career services, so in 13/14 a pilot program for delivery of these services and the interest of our students. This year (2015) marked the 2nd fiscal year this fee was paid for by Student Services Fees, the frequency of usage of career services increased by 32.8% over 2014 and across all degree programs offered at UA South. Currently more than 50% of undergraduate population and the majority of graduate are utilizing career services and the total number of students connecting with career services has remained consistent. This is a continued improvement upon the roughly 300% more UAS students have used the online Career Services tools since July of 2013 than those who used it in ALL of the 2012-2013 academic year.

This is compelling evidence that UA South students need/want and will use Career Services and paying the $5 fee for the use of online career services is a worthwhile endeavor to make these services easily available to our students.

I have included the usage data with this report for your information on page 4 of this document. In addition to continued growth in UA South student usage of online Career Services, the funding of this project has prompted other Career Services opportunities for our UA South students such UA South site visits. This has developed as a result of Career Services usage by UA South students (because of SSF funding) and ignited visibility of UA South student needs. SSF funding has prompted development of partnerships with the above main campus initiatives to provide our UA South students with further opportunities for Career Services and Graduate School planning.

Usage of these services by UA South students will continue to be monitored and reported by Career Services. Thank you for your consideration of this proposal to offer expanded Career Services to all UA South students.

Sincerely,

Maria Trevino
Academic Advisor
The University of Arizona South
