Student Services Fee Application for Funding

Contact Person: Dr. Kyle DiRoberto or Leann Newman

Email address: droberto@email.arizona.edu or lnewman@email.arizona.edu

Department: English or Student Services

Phone: 458-8278, ext. 2186 or 626-8402

Project Name: Tucson Book Festival, 2017

Project Type: travel request to the Book Festival in 2017

Funding Requested: $300

Start Date: March 11-12, 2017

Student Priorities Addressed: Will allow students outside of Tucson access to the Tucson Book Festival next year

New project: Yes

Is Service Fee monies sole funding: Yes

Will it continue without SSF funding? Yes
If Yes, how: Application each year to Student Fees committee
If No, Why:

Director of Project and contact information: Dr. Kyle DiRoberto, droberto@email.arizona.edu 458-8278, ext. 2186
Tucson Book Festival, 2017
Travel for Students

The funds requested here would allow UA South students the opportunity to travel to Tucson to attend the Tucson Book Festival in 2017. UA South vehicles would be used to pick up students in Douglas, Sierra Vista and Nogales.

Expenditures:

- Gas $100
- Lunches for approximately 18 people $200

Total requested: $300
Student Services Fee Application for Funding

**Contact Person:** Sarah Wieland  
**Department:** Student Services  
**Phone:** 520-458-8278 x. 2218  
**Email address:** swieland@email.arizona.edu  
**Project Name:** Career Services Opt-In Fee  
**Project Type:** Student Services  
**Funding Requested:** $950  
**Start Date:** August 2016  
**End Date:** August 2017

**Student Priorities Addressed:** Career Counseling Services, Career Related Resources, Job Search Resources, Resume Reviews, Interviewing Tips, Access to Wildcat JobLink

**New project:** No (Repeat)  
**If yes, multi-year justification:**  
This project started in the 2013-2014 academic year. Usage of these services by UA South students is monitored and reported by UA Career Services. After each year, usage will be evaluated to determine whether to continue funding for the services. A continued funding proposal would be submitted to the Student Services Fee committee at that time. Funding was not requested in 2015-16 year because of pending decisions from Career Services about the continuation of the fees so The University of Arizona South paid for 273 students last year ($1365) to cover the needed students in FY16. UA Career Services is now making these services free to students who were admitted in Summer 2015 forward. The proposal is adjusted this year to cover only the students who do not qualify for the free service.

**Is Service Fee monies sole funding:** Yes

**Will it continue without SSF funding?** No  
**If No, Why:** If these services are not utilized by students, continued funding will not be necessary.

**Director of Project:** Sarah Wieland swieland@email.arizona.edu

Please include with this application a budget or business plan, to include a timeline for spending.

Re: Student Services Fee Proposal – Career Services Fee

Dear Student Services Fee Committee:

In Fall 2013, The University of Arizona Career Services office implemented a yearly $5 opt-in fee to access the full scope of Career Services available. Opting in provides a “One Stop Shop” with resources and tools that will help students maximize their efforts and achieve their career goals. Such fee based services include the Arizona Career Information System, Resume Builder, Career Beam, iChat appointments with Career Counselors, Wildcat JobLink, Interview Stream, and online career assessment programs. Without opting-in, students are limited to the services they can receive from Career Services.

The following website outlines the benefits of opting-into the Career Services program: [http://career.arizona.edu/student/opt-in-with-career-services/what%27s-covered-by-the-user-fee](http://career.arizona.edu/student/opt-in-with-career-services/what%27s-covered-by-the-user-fee).

In Fall 2015, Career Services changed their process and began to provide free services once again, but only to students admitted in Summer 2015 or later terms. Students admitted to the UA prior to Summer 2015 must still pay the $5 opt-in fee to utilize the full suite of Career Services tools. Accordingly, the number of students having to pay this fee will reduce significantly each year, decreasing the amount of funds requested from SSF each year until eventually none are needed. For FY17, it is estimated that 190 UA South students will be subject to the fee. This is significantly reduced from the 500+ students we have assisted with SSF funding in the past.

The University of Arizona South Student Services proposes that this $5 yearly fee be covered for all UA South* students (undergraduate and graduate) so that all students can partake in Career Services benefits.

*UA Online students (even those pursuing a BAS degree) will not be considered part of this proposal as their respective student services fees go to main campus and are not a part of this budget process.

In Spring 2015, UA South Student Services collaborated with Career Services to provide face to face resume reviews at UA South locations (Tucson and Sierra Vista); 45+ students a year utilized this service during the 2015 and 2016 Grad Fairs.

Budget:

Anticipating growth in student enrollments and accounting for students newly admitted in the Spring semester, approximately 190 graduate and undergraduate UA South students would be eligible for this project in 2016-2017, requiring $950 to provide UA Career Services for all students. These fees will need to be paid prior to the Fall 2016 semester for students to receive the full benefits for the 2016-2017 academic year.
The University of Arizona
UA South

Budget for 2014-2015: $3,500
700 students x $5 each

Actual Spent 2014-2015: $2880
576 students x $5 each

Projected Spending 2016-2017: $950
190 students x $5 each

Assessment:
UA South students, through Student Government, had requested career services, so in 13/14 a pilot program for delivery of these services and the interest of our students. The year 2015 marked the 2nd fiscal year this fee was paid for by Student Services Fees, the frequency of usage of career services increased by 32.8% over 2014 and across all degree programs offered at UA South. Currently more than 50% of undergraduate population and the majority of graduate are utilizing career services and the total number of students connecting with career services has remained consistent. Roughly 300% more UAS students have used the online Career Services tools since July of 2013 than those who used it in ALL of the 2012-2013 academic year.

This is compelling evidence that UA South students need/want and will use Career Services and paying the $5 fee for the use of online career services is a worthwhile endeavor to make these services easily available to our students.

I have included the usage data with this report for your information on page 4-5 of this document. In addition to continued growth in UA South student usage of online Career Services, the funding of this project has prompted other Career Services opportunities for our UA South students such UA South site visits. This has developed as a result of Career Services usage by UA South students (because of SSF funding) and ignited visibility of UA South student needs. SSF funding has prompted development of partnerships with the above main campus initiatives to provide our UA South students with further opportunities for Career Services and Graduate School planning.

Usage of these services by UA South students will continue to be monitored and reported by Career Services. Thank you for your consideration of this proposal to offer expanded Career Services to all UA South students.

Sincerely,

Sarah Wieland  
Assistant Dean, Academic Advising and Student Services  
The University of Arizona South

Student Services Fee Application for Funding

Contact Person: Michelle Menninger  
Department: Student Services  
Phone: 520-458-8278 x. 2212  
Email address: mmuas@email.arizona.edu  
Project Name: SSF – TA Scholarships  
Project Type: Student Services  
Funding Requested: $10,000  
Start Date: August 2016  
End Date: August 2017

Student Priorities Addressed: Yes, see proposal.

New project: Yes  
If yes, multi-year justification: This scholarship would not exist without the support of SSF Funding.

Is Service Fee monies sole funding: Yes

Will it continue without SSF funding? No  
If No, Why: The University of Arizona is the only state university in Arizona that does not offer a special tuition program for active duty military personnel using Tuition Assistance. This would be a funding source specifically to support that population.

Director of Project: Michelle Menninger, Assistant Director mmuas@email.arizona.edu

Please include with this application a budget or business plan, to include a timeline for spending.

Re: Student Services Fee Proposal – TA Scholarship

Dear Student Services Fee Committee:

The University of Arizona is designated a Veteran Supported Campus. To qualify, a school must undergo a qualifying process demonstrating their support of veterans, which includes conducting a campus survey of student veterans to identify the needs, issues, and suggestions of veterans. After conducting our last campus-wide survey it was conclusive that majority of the students, both military affiliated and non-military affiliated, identified money being a need and suggested more scholarship opportunities.

Although we have the designation of being a Veteran Supported Campus, the University of Arizona is the only state university in Arizona that does not offer a special tuition program for active duty military personnel using Tuition Assistance. Military tuition assistance for active duty military personnel pays $250/unit and anything beyond that has to be covered by the service member or they have to ‘top off’ with other military benefits that they are often keeping for their family members (since TA is just for service members but some other GI Bill benefits can be transferred to dependents).

Proposal:
As mentioned, service members using Tuition Assistance (TA) receive $250.00 per unit, and since the majority of our classes are 3 units, student receives an average of $750.00 per class. Given the importance of this population and our student success and progression, we propose $10,000 be allocated for the TA Scholarship for the 2016-2017 academic year, dividing the total amount into $2500 each semester for two students. (2 students, $5000/academic year, $2500/semester)

Student Scenario: Service member enrolls in two classes (3 units each)
  Total Resident Tuition/Fee........................................... $3647.00*
  Total TA Coverage ($250.00 per units).......................... $1500.00
  Total Amount not covered........................................... $2147.00
  TA Scholarship.......................................................... $2500.00
  $353.00 (Textbooks)

*It is projected that tuition and fees will increase by at least 3% every year.

I recommend we base the scholarship on the following parameters:
  • Student must be a UA South student
  • Student must be Active Duty Military
  • Student must be enrolled in a total of 6 units at UA South
  • Student must have a minimum 2.0 GPA
There is an entire population of students that attend UA South who could use this financial support. Some of these students who continue at the UA do so because of the reputation that comes with the schools name. Others have that “Wildcat Pride”. The Director of the Education Center at Fort Huachuca, Sharon Lewis, asks us at least once a month if the University of Arizona has changed their policies to support service members using Tuition Assistance. Our academic advisor at Fort Huachuca reports that she loses several active duty prospects a week when she lets them know our tuition costs and policies.

Thank you for your consideration of this proposal to offer scholarships to Active Duty Military and support them in reaching their academic goals.

Sincerely,

Michelle Menninger,
Assistant Director, Student Services
The University of Arizona South

Re: Student Services Fee Proposal – UA South Scholarships

Dear Student Services Fee Committee:

Financial assistance continues to be a real source of stress when talking to UA South students pursuing higher education, and while the lack of time arguably is a constant for students, the stress of financing their education is becoming more of an issue than ever before. It is unquestionably the largest obstacle facing college students today; having sacrificed to start and now hoping to find a way to finish. Financial aid can make a massive contribution, but with the guaranteed rise in costs, scholarships and tuition assistance are now becoming the last hope for affordability.

Proposal:
Utilizing monies from the Student Services Fees, we propose the continuation of the Student Services Fee Scholarship. The idea is to give back to students, some of the money they have contributed to UA South, by way of their Student Services Fees. The criteria would include an essay submission and a minimum GPA requirement. The submissions will be reviewed by the Scholarship Committee of UA South, which comprises staff from UAS campuses. In addition, Student Services, the submitter of this proposal, is flexible to any changes in the scholarship criteria and amounts the SSF Committee wishes to suggest upon closer inspection of the existing criteria and SSF budget.

Benefits:
- Help alleviate the stresses of making educational purchases required for their courses, i.e. books, research tools, jump drives, etc.
- More tuition assistance dollars translates to less student debt.
- Students could afford to work less allowing time to improve academic performance.

Budget:
The SSF governing documents state that a minimum of 17% of student services fees must be allocated to student scholarships. Of the $50,000 anticipated in Student Services Fees for FY17, this would constitute a minimum of $8500.

Given the importance of student scholarships for student success and progression, we propose $15,000 be allocated for the scholarship for the 2016-2017 academic year, dividing the total amount into $7500 each semester.

Sincerely,

Michelle Menninger,
Assistant Director, Student Services

Re: Student Services Fee Proposal – LRC Renovation

ASUAS would like to head the committee and start working on a plan to remodel the Learning Resource Center (LRC) in Sierra Vista. ASUAS as well as students, faculty, and staff are not able to fully utilize the space the LRC provides due to the uninviting structures, décor, and accessibility. While there are workspaces and a children’s area, the space could be better utilized by students for events such as orientation, grad fair and student events.

The LRC is the only space dedicated to student use and should be an open, friendly environment for students to study, interact, and feel welcome. We recognize there is a large cost associated with revamping this space and are committed to conducting due diligence of other like spaces around Arizona colleges (such as Paradise Valley Community College Student Center) to find the best solution for our campus. Additionally, we want this space to be accessible to all UA South students with any disability so they’re able to sit and work comfortably and have the same access and opportunity for academic success.

In a 2015-2016 survey, students at the Sierra Vista location indicated they would prefer some personal study corral as well as an updated children’s area, better recycling, and a coffee station. It was also indicated that students would like to have more events and accessibility on campus when possible, and this space would provide an open and friendly atmosphere conducive for these events.

Furthermore, providing work spaces for group discussions and individual study spaces could help students to work together to be academically successful and spend more time at the UA South campus. Having mobile workspaces would also enable open space to be utilized to have an event, session or network mingling space for students, staff, for club meeting space, and even the public.

Currently, there is no running water in the LRC building (only adjacent in the bathrooms down the sidewalk). Therefore, there is no potable water in the building for students to fill water bottles or make coffee, wash hands/foods, etc. The University South Foundation is planning on adding running water to the observatory, so this renovation could be at the same time to reduce costs and disruption of having the ground dug up twice.

From an environmental perspective, the committee plans to add a water fountain with a water bottle filling station to reduce waste on campus. Additionally, a recycle station will be provided for students, staff, faculty, and visitors to recycle more materials.

Thanks to the open space plan, the updated space will be functional for large gatherings such as the commencement celebration, networking events, welcome bashes and orientations, and team building. Movable tables and stations would enable the configuration of the room to be flexible and a rentable space for the public. Additionally, the space would be more accessible to students and visitors with disabilities. Another planned feature is to add a charging station (to hopefully be sponsored by a local company) for students to charge cell phones, laptops, and mobile devices between classes or while on campus. These services make being on campus more convenient and our student life more welcoming.

It is the plan to ask for SSF funding, UA South Foundation funding, and any funding that might be available from UA South to support this effort to be conducted over the 2016-2017 school year.

- **Requested Budget:** $9,000
• To be used for (but not limited to) contractor and drafting fees, construction labor, materials, and request for quotes. Office equipment, tables, chairs, whiteboards, desks, coffee maker, water fountains etc. will also need to be purchased as part of this project.

• Supplies such as paint, lighting are planned purchases as well as décor to make the space more inviting and user friendly such as trash cans, battery chargers, couches, pillows, plants and mugs, for example, but not limited to.

• Money will not be used for food purchases or and monetary compensation for members on the committee for the renovation.

Thank you for your consideration of this proposal to offer continued support to all UA South students.

Sincerely,

Marissa Herrera

Re: Student Services Fee Proposal – ASUAS Operational Budget

Issues facing adult and evening students can be a real source of stress; however, student government helps to alleviate that stress by offering support to the UA South student body. ASUAS is responsible for the extra-curricular activities to help student’s distress from their daily academic regimen. Student government also supports clubs and organizations, which benefits students by allowing them to participate in a non-traditional setting as well as presenting opportunities to include on a resume. ASUAS traditionally puts on three main events a year that students know to look forward to: Welcome Back Bash, Dean’s Brunch/Lunch, and the Commencement Celebration.

ASUAS officers act as the voice of the UA South student populace and represent them in front of the UA South Leadership, UA Main Campus, and Arizona Board of Regents. Utilizing monies from the Student Services Fees, we propose that an ASUAS Budget be maintained as previously funded with some modifications based on student interest and needs that were evaluated in the 2015-2016 school year. The idea is to give back to students some of the money they have contributed to UA South, by way of their Student Services Fees. It would be in the best interest of UA South Students at all locations for ASUAS to receive funding to help create an amazing student experience.

In the current 2015-2016 academic year the following achievements were made possible by the generous funding we received from the SSF committee.

- Welcome Back Bash – The Welcome Back Bash event was held at the beginning of the fall and Spring semesters and brought together ASUAS officers, our clubs, and students for an unofficial meet and greet and a warm welcome for new students. (Approximately 70 attendees).

- Dean’s Brunch/Lunch – The Dean’s Brunch/Lunch event provides students (and some staff) an opportunity for informal QA session with the Dean and staff where students can ask questions and voice concerns and get an answer straight from the administration. (About 50 attendees each semester).

- Grad Fair Support – Student government supported the Grad Fair at all applicable locations this year (Sierra Vista and Tech Park) and provided food. ASUAS officers were available during the events to answer questions and promote the Commencement Celebration as well as hand out flyers for upcoming on campus activities. Additionally, ASUAS utilized this opportunity as a way to survey students (and direct them to a formal survey) regarding student needs at UA South. (Approximately 40 attendees at each location).

- Commencement Celebration – ASUAS celebrates our graduates by allowing them to celebrate together one more time. A band, photo booth, and food await our graduates and their families once the ceremony concludes. (We estimate 500 guests will attend this year). This money will help ASUAS focus on student affairs instead of using their time to fundraise for the Commencement Celebration.

- Office Supplies for posters, event flyers, printing, etc. in support of ASUAS activities and for reporting and representation at tuition hearing meetings.

- Club funding- Funding for clubs were provided to support their events, professional development, marketing, and meetings.
Beyond the SSF Budget, ASUAS worked diligently to provide additional programs and events for the UA South student population, such as:

- Student Council – The student council is a student body attached to student government. The council is focused on student life and experiences and were in charge of events like Sierra Vista Christmas tree decoration and supporting the Tips for Scholars event (with the UA-South Alumni Association-Huachucats) (About 30-40 attendees for each event).

- On Campus Field Experience: ASUAS is working with local schools and organizations that support youth education to provide a field trip to UA South. This is an opportunity for UA South to be featured in the community, for current students to bring their children to UA South to learn about higher education, and for students to engage in the learning development of the next generation.

- Campus Activities- ASUAS held both a fall football viewing party and a spring basketball viewing party for students to attend and watch the Arizona teams together to network in a social environment and celebrate school spirit.

- Leadership Building – ASUAS attended this year’s NCLC at main campus allowing them to gain leadership skill, promote team building, and represent the University of Arizona South. All of our board members attended.

- ABOR Meeting and Pre-Meetings – ASUAS attended ABOR meeting(s) and a pre-ABOR meeting(s) hosted by the governor-appointed Arizona Student Regents. The ability to attend these meetings increased the visibility of our campuses and students.

- ABOR Tuition hearing – ASUAS represented our students during the yearly ABOR tuition hearing. A light selection of snacks was served during the event for the benefit of the participating students (About 25 attendees).

Budget:

We propose $11,350 be allocated to ASUAS for FY2017.

- **Commencement After Party:** $5000 – This budget will help to pay for an after party to honor graduating students. The party will be held near the location of the UA South Commencement with involvement from UA South staff, University Foundation, and ASUAS. All of the 2014-2015 budget from SSF was fully utilized and additionally, the planned budget of $5,000 for 2015-2016 has been allocated to be fully utilized as well in May 2016. The increased budget of $5000 let the commencement planning team focus on the event and did not require additional fundraising as previous years had required. Further, the even was well received and a proper celebration of the academic achievements completed by students and used their funds in their honor.

- **Office Supplies:** $150 – Support ASUAS, clubs, and Student Council office operations.

- **New or Existing Clubs:** $500 – This will help support new and existing clubs to purchase marketing materials such as banners and promote themselves. These clubs don’t receive any SSF support individually, so this money can be used to help them with but is not limited to putting on events, print certificates, or provide professional development for their members.
Re: Student Services Fee Proposal – ASUAS Operational Budget

- **Marketing Materials:** $1500  This money will help support the ASUAS board members and students by allowing the purchase of marketing materials to establish brand recognition for the student body at UA South at local campuses and beyond. The hope is that through additional marketing/branding, students will want to be more engaged on campus and want to represent UA South. From the 2015-2016 survey of students, 57% of students who responded wanted branded gear as part of their student experience (this was the largest response for the question).

- **Welcome Back Bash:** $500 - These funds will provide refreshments, decorations, and educational material for this student event which welcomes students back to campus and new students to UA South.

- **Graduation Fair:** $200 - This money will provide refreshments and decorations, and educational material for this student event.

- **Deans Brunch/Lunch:** $1,500 -- This money will provide food, decoration, and refreshments for students and the Dean. This will be an event where students will be invited to meet with the Dean once a semester and share a meal with him and address any questions or concerns.

- **ASUAS Advisor Salary:** $2000 -- will compensate for the hours spent by the ASUAS advisor to support, advise, and advocate for ASUAS as well as compensate for the many hours spent participating in ASUAS meetings, programs, and events. ASUA advisors on the Main Campus are paid a full time salary, however, the position at UA South is volunteer. The advisor plays a very important role in supporting student life for all UA South students through ASUAS, but these additional responsibilities are expected to be met despite their already full time jobs.

Thank you for your consideration of this proposal to offer continued support to all UA South students.

Sincerely,

Kayla Simpson  
ASUAS Treasurer  
The University of Arizona South
